Connectivity

Courses on digital interconnect technologies

ACSYS offers a large set of courses on connectivity technologies.
Each course details a particular standard, such as PCI Express or RapidIO.

I0 - New digital buses This 1-day seminar aims to describe and compare new digital interconnect standards

IA1 - CAN bus This course covers all CAN specifications: CAN 2.0, TT-CAN and FD-CAN

IA3 - MIL-STD 1553B This course covers the 1553 military bus

IC1 - PCI 3.0 This course covers PCI bus version 3.0

IC4 - PCI Express 3.0 This course covers PCI Express gen3 as well as gen1 and gen2

IM1 - HDMI 1.4a This course covers the HDMI multimedia interface

IP1 - FireWire This course covers IEEE1394, IEEE1394a, IEEE1394b and DV specification

IP2 - USB 2.0 This course covers USB2.0

IP3 - USB 3.0 This course covers USB3.0 and related specifications: OTG 3.0, xHCI, UAS and AV classes
