

NXP ColdFire

Courses on NXP ColdFire processors

ACSYS offers a large set of courses on NXP processors.

Each course details both hardware and software implementation of these processors.

Examples are provided to explain low level programming, which is needed to understand the boot program.

For on-site trainings, an additional day on Linux porting or Windows Embedded porting may be appended to the processor course. **RT3 - Programmation temps réel avec FreeRTOS** La programmation temps réel appliquée au système d'exploitation FreeRTOS
