

Techniques et protocoles de communication

Internet est de plus en plus omniprésent; il est maintenant inévitable dans les systèmes embarqués. STG STM32 + FreeRTOS - 5 days Inquiry STS1 - WiFi Implementation 2 days Inquiry IoT - Internet of Things (MQTT, MQTT-SN and CoAP), exploits particularly nefarious IoT focused attacks and security provisions at each level of stack physical layer, communication systems and networks. This course explains how to configure the WAN with FreeRTOS 3 days Inquiry LS - For a microcontroller-based IoT application. It requires previous knowledge of Protocol 1 day Inquiry N3 - Ethernet 10 Gigabit 3 days Inquiry N2 - IEEE1588 - Precise Time
